We strive to:

SCHOOL GOALS:

INTELLECTUAL DEVELOPMENT

LITERACY: All students will demonstrate growth in reading and writing through structured literacy instruction at all three tiers. This includes explicit instruction, phonics, fluency, comprehension, vocabulary, and writing stamina.

NUMERACY: Students will demonstrate growth in mathematical reasoning, problem-solving, and flexible thinking while developing confidence and independence as learners through structured numeracy instruction aligned with district standards.

HUMAN & SOCIAL DEVELOPMENT

All students will strengthen their well-being and social-emotional competencies by building self-regulation, positive relationships, resilience, empathy, and problem-solving skills that foster a strong sense of belonging through an Ensoulng Schools Framework.
