

## **Administrative Procedure 306**

---

### **ADMISSION TO CHOICE PROGRAMS**

#### **Background**

The District is required, under the [School Act](#) and in accordance with provincial legislation, to provide an educational program for all students of school age. The District believes that the needs of the majority of students are best served when they attend the school in their catchment area.

The District also recognizes that students learn in a variety of different learning environments. In addition to the regular program offered at District catchment schools, the District offers programs of choice at the elementary, middle and secondary school levels. These programs are designed to recognize students' diverse ways of learning and address a range of interests and abilities. Choice programs are delivered in learning environments that are designed to reflect a variety of different program delivery and philosophical models.

The District believes that access and equity are important attributes of public education that must be respected when accepting students into choice programs.

Recognizing that enrollment in choice programs is limited, a central application process supporting equity of access will be maintained. This process will allow a parent to make application into a choice program as specified in this Administrative Procedure.

#### **Procedures**

1. These procedures apply to entry into:
  - 1.1. Early French Immersion
  - 1.2. Late French Immersion
  - 1.3. Langley Fine Arts
  - 1.4. Langley Fundamental Elementary/Middle/Secondary
  - 1.5. Coghlan Fundamental Elementary
  - 1.6. Uplands Montessori Elementary
  - 1.7. Outdoor Programs
  - 1.8. U-Connect (Entry procedures differ for U-Connect, as per below. Parents should also consult the school website for more details.)
2. The District recognizes that students learn in a variety of different learning environments. The District provides a number of choice programs at the elementary, middle, and secondary levels that offer students an option from regular school programming. Choice programs provide options to parents who desire a special focus for their child's learning

through different program delivery models.

3. Each choice program is unique, with a distinct identity and approach to curriculum delivery and philosophy. Each program typically features a specialized focus, a commitment to innovative programs and significant community involvement. While the programs offer courses approved by the Ministry of Education and Child Care, they are delivered in learning environments that are flexible and meet the needs of individual students.
4. This Administrative Procedure is created under the guiding principles that entry into a choice program is to be based on the educational and learning needs of the student. It is the responsibility of the student's parent to obtain information about the program so that they are able to make an informed decision in the best interest of their child.
5. If parents are interested in a particular choice program, they are invited to contact the school where that program is offered. Information can also be obtained from the District [website](#).
6. Procedural Considerations for Choice Program Options for entry into the first year of the program (Kindergarten and grade 6 for late-entry French Immersion)
  - 6.1. The District allows parents the ability to apply to a maximum of two choice programs for their child. Entry into any choice program is through an application process. The District has established criteria for priority placement into choice programs and the details are listed below.
  - 6.2. Families will be invited to apply to a maximum of two choice programs beginning at noon on the first Monday in October in the year prior to the September start in the program. Families will be required to name their first and second choice program preference on the application. Should families have a strong preference for one particular program, they are not required to choose two.
  - 6.3. The following points listed below outline the procedure for application.
    - 6.3.1. All applications (except U-Connect) must be completed and submitted online.
    - 6.3.2. Any families who do not have Internet access will be accommodated at the District Office for two weeks beginning at 12:00 pm noon on the first Monday in October of the year prior to the September start in the program.
    - 6.3.3. This process would apply to all choice programs, except U-Connect.
    - 6.3.4. U-Connect entry is continuous throughout the year. Parents interested in attending U-Connect should contact the school directly, attend an information session, then complete an application package that is given directly to the school.
    - 6.3.5. This process would precede the deadline for catchment area registrations that typically begin on the third Monday in January prior to the September start.
    - 6.3.6. Parents who are not successful in entering the program in its first year would end up on the waitlist for the programs to which they applied.
  - 6.4. Some choice programs have more than one entry point into the program depending on the specific program and circumstances. In choice programs where there are multiple entry points, parents who are not successful in obtaining a placement in the year of first entry would remain on the waitlist, and may be offered a place in the choice program at a later date.
  - 6.5. Once a parent is invited to register their child in a choice program and accepts the registration, their child's name will be removed from any other list. They will surrender the opportunity to hold an additional placement option in reserve.
  - 6.6. If a parent is invited to register their child in a choice program and does not accept

the registration, the parent will be removed from the waitlist. If the parent wishes to remain on the waitlist, the parent will be placed at the bottom of the waitlist.

- 6.7. Information sessions, such as 'Open House' evenings, will be offered at the various schools to communicate the unique characteristics of each choice program and to outline the application and registration processes. Links to information on the District website will provide more information to parents and students, and parents are encouraged to take advantage of the information available to learn about the programs.

## 7. Registration Priority Criteria

For seats available at choice programs, the following selection criteria will be used to place students who have completed the application process:

- 7.1. First priority will be given to the siblings of District resident students who are enrolled at the school choice program or in the same District choice program.
- 7.2. Second priority will be given to District resident students.
- 7.3. Third priority will be given to the siblings of District non-resident students who are enrolled at the school choice program or in the same District choice program.
- 7.4. Fourth priority will be given to non-resident students in the following sequence:
  - 7.4.1. Students resident in another British Columbia School District.
  - 7.4.2. Other Canadian students who are resident in British Columbia.

## 8. International Students

- 8.1. Each year, the District reserves a limited number of seats in certain choice programs at the secondary school level for international students.

## 9. Random Draw Process

- 9.1. At times, for certain programs in the first year of intake, there may be more applications than seats available for the next year's intake. Should this be the case, the available seats will be issued to students on a random draw basis following the priority order criteria listed above. The random draw could therefore occur at any point in the priority order criteria depending on the actual choice program. In order to be considered to participate in the random draw procedure, parents will need to have fully completed the online application with all of their child's necessary documentation in place.
- 9.2. The District anticipates holding the draw for each program, if necessary, in November of the year preceding the September entry point into the program. Parents who have successfully completed the application process will be automatically entered into the random draw process should there be one.

## 10. Acceptance Date

- 10.1. The Acceptance Date will be defined as the date that the parent is notified that a placement is available for their child and they must in turn either accept or decline the offer. Parents will be notified in advance of the timeline for this part of the process and they will have a maximum timeframe of forty-eight hours in order to formally accept the placement or decline the offer. The forty-eight hours (2 business days) begins at first contact by the School District. After that time, if the parent has not declared their intent for placement, the child's application goes to the bottom of the waitlist.

## 11. Registration Date

- 11.1. The 'Registration Date' is the date established with an individual parent to formally register their child at the school site of the choice program and to provide all of the necessary registration documentation to the Principal. At this point, all required paperwork would be completed.

## 12. Waitlists

- 12.1. The District recognizes that family circumstances can change throughout the course of a year and consequently, placements may become available during the year after the registration processes have been completed. Therefore, waitlists will be maintained for each choice program. The waitlist will be created from the priority placement and random draw process. Parents who were not successful in obtaining a placement in their preferred choice program each year will be able to indicate that they would like their child's name to remain on the waitlist. For programs with multiple entry points, the waitlist will remain in effect until the parent is offered registration into the program or until the student transitions from the Langley School District, whichever comes first.
- 12.2. In choice programs with multiple entry points, for parents who did not apply into the first year of the program and who are currently not on the waitlist for that program, parents may apply directly to the school to be placed on the waitlist. The parent will be placed at the bottom of the waitlist, unless they fit one of the priority descriptions in Article 7, above.

## 13. Review Process

- 13.1. If a parent has a concern regarding a placement or lack thereof in any choice program, parents can make an appeal via [Board Policy 13 – Appeals Bylaw](#).
