

Intro to Health Science Course

Program Guide

Intro to Health Science

Territory Acknowledgement

The Langley School District serves the Matsqui, Kwantlen, Katzie and Semiahmoo First Nations, The City of Langley, and the Township of Langley. The District is honoured to operate on the unceded, ancestral, and traditional territories of the Máthxwi, q̓ʷa:ńłəń, q̓iǰəy̓, and SEMYOME First Nations.

We at Kwantlen Polytechnic University respectfully acknowledge that we live, work and study in a region that overlaps with the unceded traditional and ancestral First Nations territories of the Musqueam, Katzie, Semiahmoo, Tsawwassen, Qayqayt, and Kwikwetlem, and with the lands of the Kwantlen First Nation, which gifted its name to this university.

Welcome

The Langley School District (SD35), in partnership with Kwantlen Polytechnic University (KPU), offers a dual credit Introduction to Health Science HSCI 1115 course. In this course, students are introduced to the multi-faceted field of health science and the foundations of promoting health and wellness.

This KPU Langley Campus summer class offers SD35 students an opportunity to take a post-secondary course in Health Science while still in high school. Students earn dual credits for a high school and post-secondary course.

Why this Course?

Timeline

Why This Course?

- **Organizational Skills:** Learn how to manage time effectively in an accelerated time period
- **Initiative:** Experience what it is like to take a university course before graduation
- **Empathy:** Learn how to help others live healthier lives
- **Enthusiasm and Curiosity:** Interest in life science and human biology

Develop Professional Skills

- Examine the varied concepts of health science from many perspectives including biological, clinical, cultural, environmental, political and socioeconomic
- Explore the careers, systems and structures in place that promote and assist health and wellness in the community and our country
- Learn the advantages of well organized, versatile teams in a generation of productivity, innovation, and effective service

*"I believe it's a great experience and opportunity that everyone should try, especially if they are interested in the medical field."
2024 Intro to Health Science Student*
