

Trouble Shooting: Allowing Pop Ups Safari (iPad)

If you are accessing Spaces via the web (on Safari), you need to make sure that pop-ups are allowed so students can enter their @langleschools sign in credentials.

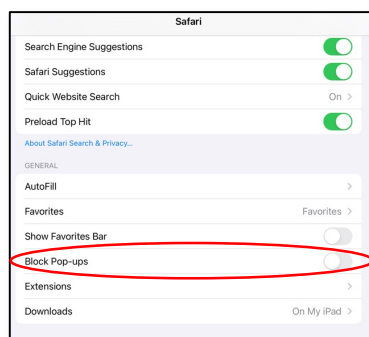

1. On your iPad, go to the Settings app and tap to open it.

2. Scroll down to Safari. Tap on that.

3. Scroll down to where it says Block Pop-ups and make sure the toggle switch is **turned off**.

4. Now go back to spacesedu.com on Safari and log in again. You should get a pop up with the Langley Schools logo.
