# Black History Month

BY SARA HASANINE

While February is the shortest month in the year it is never the least important. February is Black History Month due to historically significant events that occurred during the month. At R.E. Mountain, staff and students alike collaborated to make the most of Black History Month by providing learning resources all over the school and in our classrooms. Our gallery was decorated with QR codes about many influential historical figures and their stories so that we as a community can further our learning about Black History.

Around the school a video played on our TV monitors in appreciation of Black History Month. The project allowed us to learn why it is important for our generation to recognize history. But we did not stop there — educators and students encouraged conversations inside and outside of classrooms. Even though the month has come to an end, we should not dismiss Black issues and microaggressions within our community, and instead use our learning to break down racism and appreciate one another's culture within our diverse school community.

# School Supplies Drive

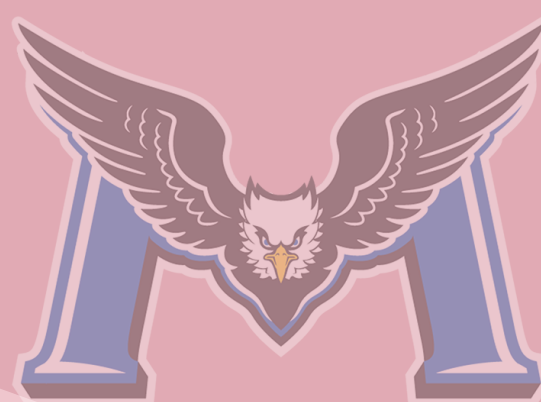

TINA YU & RAYMOND ZHANG

The school supplies drive organized by our SGE club was a huge success! The aim was to collect new or gently used school supplies to provide for children in families affected by COVID-19, but anyone is welcome to come by the library everyday at morning and lunch to pick up some supplies. From February 14th to 18th, boxes were placed in classrooms to collect donations for school supplies. At the end, over 30 binders, 40 duo-tangs, and 200 pens were collected for donation!

The SGE club started as a community to support girls' education last year and raised a fundraiser of over 1,000 dollars for a school in Ghana. This year, they shifted their focus towards funding education of the local community after the effects of COVID-19, followed by the name change to Support General Education.

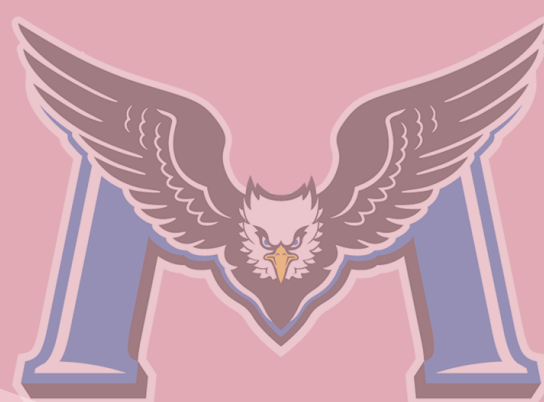

# Club's Guide and Club's Corner

## JOANNA CHOI

Have you ever wondered what clubs our school has, or where to find the clubs you're interested in? We now have a Club's Guide and Club's Corner where you can find the information you need. The Club's Guide has specific details on the meeting time, the meeting date, and the meeting location of all 26 clubs in our school. You can also learn about their basic activities and overall goals they are working towards.

The Club's Corner is an area where the Student Council displays the Club's Guides and hosts a "Club of the Month" program. Two clubs each month are featured to help students learn about the diverse clubs our school has. It is located in the hallway opposite Mr. Carroll's room (1106) and also has QR codes that link to the guides you're looking for.

In short, the Club's Guide is a short introduction to each of the school's clubs and Club's Corner is a place where you can easily access that information.
