SCHOOL DISTRICT NO. 35 (LANGLEY)
STATEMENT OF FINANCIAL INFORMATION
MANAGEMENT REPORT
FOR THE YEAR ENDED JUNE 30, 2018

The Financial Statements contained in this Statement of Financial Information under the Financial Information Act have been prepared by management in accordance with Canadian generally accepted accounting principles and the integrity and objectivity of these statements are management's responsibility.

Management is also responsible for all other schedules of financial information and for ensuring this information is consistent, where appropriate, with the information contained in the financial statements and for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Board of Education is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control and for approving the financial information included in the Statement of Financial Information.

The external auditors, KPMG, conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements as required by the School Act. Their examination does not relate to the other schedules of financial information required by the Financial Information Act. Their examination includes a review and evaluation of the Board's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly.

MANAGEMENT REPORT

Version: 7983-7237-5255

Management's Responsibility for the Financial Statements.

The accompanying financial statements of School District No. 35 (Langley) have been prepared by management in accordance with the accounting requirements of Section 23.1 of the Budget Transparency and Accountability Act of British Columbia, supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all of the notes to the financial statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

The preparation of financial statements necessarily involves the use of estimates based on management's judgment particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and reliable financial information is produced.

The Board of Education of School District No. 35 (Langley) (called the "Board") is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises these responsibilities through the Board. The Board reviews internal financial statements on a monthly basis and externally audited financial statements yearly.

The external auditors, KPMG, conduct an independent examination, in accordance with Canadian generally accepted auditing standards, and express their opinion on the financial statements. The external auditors have full and free access to financial management of School District No. 35 (Langley) and meet when required. The accompanying Independent Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on the School District's financial statements.

INDEPENDENT AUDITORS' REPORT

To the Board of Education of School District No. 35 (Langley), and
To the Minister of Education, Province of British Columbia

We have audited the accompanying financial statements of School District No. 35 (Langley), which comprise the statement of financial position as at June 30, 2018, the statement of operations, changes in net financial assets (debt) and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of School District No. 35 (Langley) as at and for the year ended June 30, 2018 are prepared, in all material respects, in accordance with the financial reporting provisions of Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 2(a) to the financial statements, which describes the basis of accounting and the significant differences between such basis of accounting and Canadian public sector accounting standards.

School District No. 35 (Langley)

Notes to the Financial Statements

Year Ended June 30, 2018

1. Authority and Purpose

The School District, established on April 12, 1946, operates under authority of the *School Act* of British Columbia as a corporation under the name of "The Board of Education of School District No. 35 (Langley)" and operates as "School District No. 35 (Langley)". A Board of Education (Board) elected for a four year term governs the School District. The School District provides educational programs to students enrolled in schools in the district, and is principally funded by the Province of British Columbia through the Ministry of Education. School District No. 35 (Langley) is exempt from federal and provincial income taxes.

2. Summary of Significant Accounting Policies

a) Basis of Accounting

These financial statements have been prepared in accordance with Section 23.1 of the Budget Transparency and Accountability Act of the Province of British Columbia supplemented by Regulations 257/2010 and 198/2011 issued by the Province of British Columbia Treasury Board. The Budget Transparency and Accountability Act requires that the financial statements be prepared in accordance with the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada, or if the Treasury Board makes a regulation, the set of standards and guidelines that comprise generally accepted accounting principles for senior governments in Canada as modified by the alternate standard or guideline or part thereof adopted in the regulation.

Regulation 257/2010 requires all tax-payer supported organizations in the Schools, Universities, Colleges and Hospitals sectors to adopt Canadian public sector accounting standards without any PS4200 elections.

Regulation 198/2011 requires that restricted contributions received or receivable for acquiring or developing a depreciable tangible capital asset or contributions in the form of a depreciable tangible capital asset are to be deferred and recognized in revenue at the same rate that amortization of the related tangible capital asset is recorded.

For British Columbia tax-payer supported organizations, these contributions include government transfers and externally restricted contributions.

The accounting policy requirements under Regulation 198/2011 are significantly different from the requirements of Canadian public sector accounting standards which requires that:

- government transfers, which do not contain a stipulation that creates a liability, be recognized as revenue by the recipient when approved by the transferor and the eligibility criteria have been met in accordance with public sector accounting standard PS3410; and
- externally restricted contributions be recognized as revenue in the period in which the resources are used for the purpose or purposes specified in accordance with public sector accounting standard PS3100.

As a result, revenue recognized in the statement of operations and certain related deferred capital revenue would be recorded differently under Canadian public sector accounting standards.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

b) Cash and Cash Equivalents

Cash and cash equivalents include cash in the bank and deposits in the Provincial Ministry of Finance Central Deposit Program which are readily convertible to cash and that are not subject to a significant risk of change in value. The deposits with the Ministry of Finance can be withdrawn from the program with three days of notice.

c) Accounts Receivable

Accounts receivable are measured at amortized cost and shown net of allowance for doubtful accounts.

d) Prepaid Expenses

Prepaid expenses include costs prepaid for insurance, equipment and software maintenance, and other fees. These prepaid expenses are stated at acquisition cost and are charged to expense over the future periods expected to benefit from them.

e) Unearned Revenue

Unearned revenue includes tuition fees received for courses to be delivered in future periods and receipt of proceeds for services or products to be delivered in a future period. Revenue will be recognized in that future period when the courses, services, or products are provided.

f) Deferred Revenue and Deferred Capital Revenue

Deferred revenue includes both government transfers and other contributions received with stipulations that meet the description of restricted contributions in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. When restrictions are met, deferred revenue is recognized as revenue in the fiscal year in a manner consistent with the circumstances and evidence used to support the initial recognition of the contributions received as a liability as detailed in Note 2(i).

Funding received for the acquisition of depreciable tangible capital assets is recorded as deferred capital revenue and amortized over the life of the asset acquired as revenue in the statement of operations. This accounting treatment is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that creates a liability in which case the transfer is recognized as revenue over the period that the liability is extinguished.

g) Tangible Capital Assets

Capital assets acquired or constructed are recorded at cost which includes amounts that are directly related to the acquisition, design, construction, development, improvement or betterment of the assets. Cost also includes overhead directly attributable to construction as well as interest costs that are directly attributable to the acquisition or construction of the asset.

Donated tangible capital assets are recorded at their fair market value on the date of donation, if available. Otherwise a nominal value is used.

Work-in-progress is recorded as an acquisition to the applicable asset class at substantial completion.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

g) Tangible Capital Assets (continued)

Tangible capital assets that no longer contribute to the ability of the School District to provide services are written-down to residual value and accounted for as expenses in the Statement of Operations.

Buildings that are demolished or destroyed are written-off.

The cost, less any residual value, of tangible capital assets (excluding sites) is amortized on a straight line basis over the estimated useful life of the asset. Estimated useful lives for the School District's tangible capital assets, as determined by management, are as follows:

Buildings	40 years
Furniture & Equipment	10 years
Vehicles	10 years
Computer Software	5 years
Computer Hardware	5 years
Equipment Under Capital Leases	5 years

Amortization of tangible capital assets is taken at one-half the normal annual rate in the year of acquisition and in the year of disposal. Amortization of equipment under capital leases is taken monthly over the term of the leases.

h) Internally Restricted Reserves

Certain amounts, as approved by the Board are set aside in accumulated surplus for future operating and capital purposes. Transfers to and from funds and reserves are an adjustment to the respective fund when approved (see Note 12 – Accumulated Surplus and Note 13 – Interfund Transfers).

i) Revenue Recognition

Revenues are recognized in the period in which the transactions or events occurred that gave rise to the revenues. All revenues are recorded on an accrual basis, except when the accruals cannot be determined with a reasonable degree of certainty or when their estimation is impracticable.

Contributions received or where eligibility criteria have been met are recognized as revenue except where the contribution meets the criteria for deferral as described below. Eligibility criteria are the criteria that the School District has to meet in order to receive the contributions including authorization by the transferring government.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

i) Revenue Recognition (continued)

For contributions subject to a legislative or contractual stipulation or restriction as to their use, revenue is recognized as follows:

- Non-capital contributions for specific purposes are recorded as deferred revenue and recognized as revenue in the year related expenses are incurred,
- Contributions restricted for site acquisitions are recorded as revenue when the sites are purchased, and
- Contributions restricted for tangible capital assets acquisitions other than sites are recorded as deferred capital revenue and amortized over the useful life of the related assets.

Donated tangible capital assets other than sites are recorded at fair market value, if available, and amortized over the useful life of the assets. Donated sites are recorded as revenue at fair market value when received or receivable.

The accounting treatment for restricted contributions is not consistent with the requirements of Canadian public sector accounting standards which require that government transfers be recognized as revenue when approved by the transferor and eligibility criteria have been met unless the transfer contains a stipulation that meets the criteria for liability recognition in which case the transfer is recognized as revenue over the period that the liability is extinguished.

Revenue related to fees or services received in advance of the fee being earned or the service is performed is deferred and recognized when the fee is earned or service performed.

Investment income is reported in the period earned. When required by the funding party or related Act, investment income earned on deferred revenue is added to the deferred revenue balance.

j) Expenses

Expenses are reported on an accrual basis. The cost of goods consumed, and services received during the year is expensed.

Allocation of Costs

- Operating expenses are reported by function, program, and object. Whenever possible, expenditures are determined by actual identification. Additional costs pertaining to specific instructional programs, such as special and aboriginal education, are allocated to these programs. All other costs are allocated to related programs.
- Actual salaries of personnel assigned to two or more functions or programs are allocated based on the time spent in each function and program. School-based clerical salaries are allocated to school administration and partially to other programs to which they may be assigned. Principals and Vice-Principals salaries are allocated to school administration and may be partially allocated to other programs to recognize their other responsibilities.
- Employee benefits and allowances are allocated to the same programs, and in the same proportions, as the individual's salary.
- Supplies and services are allocated based on actual program identification.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

k) Financial Instruments

A contract establishing a financial instrument creates, at its inception, rights and obligations to receive or deliver economic benefits. The financial assets and financial liabilities portray these rights and obligations in the financial statements. The School District recognizes a financial instrument when it becomes a party to a financial instrument contract.

Financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and other current liabilities.

All financial assets and liabilities are recorded at cost or amortized cost and the associated transaction costs are added to the carrying value of these investments upon initial recognition. Transaction costs are incremental costs directly attributable to the acquisition or issue of a financial asset or a financial liability.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

Unrealized gains and losses from changes in the fair value of financial instruments measured at fair value are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations. There are no measurement gains or losses during the periods presented; therefore no statement of remeasurement gains or losses is included in these financial statements.

All financial assets except derivatives are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations.

l) Employee Future Benefits

The School District provides certain post-employment benefits including vested and non-vested benefits for certain employees pursuant to certain contracts and union agreements. Benefits include vested sick leave, accumulating non-vested sick leave, retirement allowances, vacation pay and life insurance.

The School District accrues its obligations and related costs under employee future benefit plans. The future benefits cost is actuarially determined using the projected unit credit method pro-rata on service and using management's best estimate of expected salary escalation, termination and retirement rates, and mortality. The discount rate used to measure obligations is based on the cost of borrowing.

The cumulative unrecognized actuarial gains (losses) are amortized over the expected average remaining service lifetime (EARSL) of active employees covered under the plan. The EARSL for employees of the School District is 9.6 years.

The most recent valuation of the obligation was performed at March 31, 2016 and projected for use to March 31, 2019. The next valuation will be performed at March 31, 2019 for use at June 30, 2019. For the purposes of determining the financial position of the plans and the employee future benefit costs, a measurement date of March 31 was adopted for all periods subsequent to July 1, 2004.

The School District and its employees make contributions to the Teachers' Pension Plan and Municipal Pension Plan. The plans are multi-employer plans where assets and obligations are not separated. The costs are expensed as incurred.

Year Ended June 30, 2018

2. Summary of Significant Accounting Policies (continued)

m) Measurement Uncertainty

Preparation of financial statements in accordance with the basis of accounting described in Note 2(a) requires management to make estimates and assumptions that impact reported amounts for assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Significant areas requiring the use of management estimates relate to the potential impairment of assets, amortization rates, estimated employee future benefits, and contingent liabilities. Actual results could differ from those estimates.

n) Liability for Contaminated Sites

A liability for contaminated sites is recognized when a site is not in productive use and the following criteria are met:

- An environmental standard exists;
- Contamination exceeds the environmental standard;
- The School District is directly responsible or accepts responsibility for the contamination;
- It is expected that future economic benefits will be given up; and
- A reasonable estimate of the amount can be made.

The liability is recognized as management's estimate of the cost of post-remediation including operation, maintenance and monitoring that are an integral part of the remediation strategy for a contaminated site.

o) Asset Retirement Obligations

Liabilities are recognized for statutory, contractual or legal obligations associated with the retirement of tangible capital assets when those obligations result from the acquisition, construction, development or normal operation of the assets. The obligations are measured initially at fair value, determined using present value methodology, and the resulting costs capitalized into the carrying amount of the related tangible capital asset. In subsequent periods, the liability is adjusted for accretion and any changes in the amount or timing of the underlying future cash flows. The capitalized asset retirement cost is amortized on the same basis as the related asset and accretion expense is included in the Statement of Operations.

	<u>27,171,152</u>	<u>25,542,390</u>
Decrease:		
Amortization	(7,226,767)	(6,969,374)
Revenue recognized on disposals	-	(877,860)
Site purchase	(9,446,093)	(11,196)
Transfer to income statement for AFG	-	(250,251)
	<u>(16,672,860)</u>	<u>(8,108,681)</u>
Balance, End of Year	<u>\$ 174,425,028</u>	<u>\$ 163,926,736</u>

Deferred capital revenue includes grants and contributions received that are restricted by the contributor for the acquisition of tangible capital assets that meet the description of a restricted contribution in the Restricted Contributions Regulation 198/2011 issued by Treasury Board. Once spent, the contributions are amortized into revenue over the life of the asset acquired.

School District No. 35 (Langley)

Notes to the Financial Statements

Year Ended June 30, 2018

9. Employee Future Benefits

Benefits include vested sick leave, accumulating non-vested sick leave, retirement allowances, vacation pay and life insurance. The accrued benefit obligation for employee future benefits is not funded as funding is provided when the benefits are paid. Accordingly, there are no plan assets. Although no plan assets are uniquely identified, the School District has provided for the payment of these benefits.

	2018	2017
Reconciliation of Accrued Benefit Obligation		
Accrued benefit obligation, April 1	\$ 5,814,268	\$ 6,252,264
Service cost	481,152	481,635
Interest cost	164,087	156,106

Net Benefit Expense	\$ 756,000	\$ 786,802

School District No. 35 (Langley)

Notes to the Financial Statements

Year Ended June 30, 2018

9. Employee Future Benefits (continued)

The significant actuarial assumptions for measuring the School District's accrued benefit obligations are:

	<u>2018</u>	<u>2017</u>
Discount rate - April 1	2.75%	2.50%
Discount rate - March 31	2.75%	2.75%
Long term salary growth - April 1	2.50% + seniority	2.50% + seniority
Long term salary growth - March 31	2.50% + seniority	2.50% + seniority
EARSL - March 31	9.6 years	9.6 years

The employee future benefits liability of \$5,548,829 (2017: \$5,369,116) identified on the statement of financial position includes the liability for the School District's retirement plan for non-teaching employees (see below), in addition to the vested and non-vested employee future benefits described above.

The total employee future benefits liability amount is comprised of:

	<u>June 30, 2018</u>	<u>June 30, 2017</u>
Vested and non-vested School District benefits	\$ 5,533,979	\$ 5,356,316
Retirement plan for non-teaching employees (Note 10 b)	14,850	12,800
Total Accrued Benefit Liability	<u>\$ 5,548,829</u>	<u>\$ 5,369,116</u>

10. Employee Pension Plans

a) Teachers' Pension Plan and Municipal Pension Plan

The School District and its employees contribute to the Teachers' Pension Plan and Municipal Pension Plan, jointly trustee pension plans. The boards of trustees for these plans represent plan members and employers and are responsible for managing the pension plans including investing assets and administering benefits. The pension plans are multi-employer defined benefit pension plans. Basic pension benefits provided are based on a formula. As at December 31, 2016, the Teachers' Pension Plan has about 45,000 active members and approximately 37,000 retired members. As at December 31, 2016 the Municipal Pension Plan has about 193,000 active members, of which approximately 24,000 are from school districts.

Every three years, an actuarial valuation is performed to assess the financial position of the plans and adequacy of plan funding. The actuary determines an appropriate combined employer and member contribution rate to fund the plans. The actuary's calculated contribution rate is based on the entry-age normal cost method, which produces the long-term rate of member and employer contributions sufficient to provide benefits for average future entrants to the plans. This rate is then adjusted to the extent there is any amortization of any funding deficit.

The most recent actuarial valuation of the Teachers' Pension Plan as at December 31, 2014, indicated a \$449 million surplus for basic pension benefits on a going concern basis. As a result of the 2014 basic account actuarial valuation surplus and pursuant to the joint trustee agreement, the employer basic contribution rate decreased.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

10. Employee Pension Plans (continued)

a) Teachers' Pension Plan and Municipal Pension Plan (continued)

The most recent actuarial valuation for the Municipal Pension Plan as at December 31, 2015, indicated a \$2,224 million funding surplus for basic pension benefits on a going concern basis. As a result of the 2015 basic account actuarial valuation surplus and pursuant to the joint trustee agreement, \$1,927 million was transferred to the rate stabilization account and \$297 million of the surplus ensured the required contribution rate remained unchanged.

The next valuation for the Teachers' Pension Plan will be as at December 31, 2017, with results available in late 2018. The next valuation for the Municipal Pension Plan will be as at December 31, 2018, with results available in 2019.

Employers participating in the plans record their pension expense as the amount of employer contributions made during the fiscal year (defined contribution pension plans accounting). This is because the plans record accrued liabilities and accrued assets for the plans in aggregate with the result that there is no consistent and reliable basis for allocating the obligation, assets and cost to individual employers participating in the plans.

The School District's employer contributions to these plans in the fiscal year ended June 30, 2018 were \$18,301,498 (2017: \$16,683,073).

b) Retirement Plan for Non-Teaching Employees of School District No. 35 (Langley)

The Retirement Plan for Non-Teaching Employees of School District No. 35 (Langley) is a defined benefit pension plan that has been effective since October 1, 1964. Effective January 1, 1991, new employees are not permitted to join the plan and are required to join the Municipal Pension Plan. The pension plan has 1 active member, 1 deferred member and 23 retired members. The plan provides benefits based on years of service and the average compensation of the year in which the member retires.

The Board has appointed a Retirement Committee consisting of management, union and plan members to be in charge of the general administration of the plan. The School District uses the services of outside firms to provide pension administration services and management of the pension plan including investment of the assets and administration of benefits.

The School District is in the process of winding up the Retirement Plan for Non-Teaching Employees. Any surplus realized will be distributed to the plan members and any deficiency will be recognized as a liability of the School District. The financial position of the plan will depend on the date that the plan is wound up and therefore a liability has not been recorded at June 30, 2018.

An actuarial valuation is normally performed every three years to assess the financial position of the plan. The actuarial valuation conducted as at December 31, 2014 reported a going-concern surplus of \$848,000 (2011: \$436,000 deficit) and a solvency deficiency of \$195,000 (2011: \$1,198,000).

The School District was required to make employer contributions equal to the current service cost retroactive to January 1, 2015 and to make special payments to fund the solvency deficiency either over two years or in a lump sum payment. The School District has now fully funded the solvency deficiency. There will be no further actuarial valuation as the plan is in the process of being wound-up.

For the fiscal year ended June 30, 2018, the School District has accrued service costs of \$7,450 (2017: \$5,400) and a liability of \$14,850 (2017: \$12,800).

School District No. 35 (Langley)

Notes to the Financial Statements

Year Ended June 30, 2018

11. Expense by Object

	June 30, 2018	June 30, 2017
Salaries and benefits	\$192,188,633	\$174,481,494
Services and supplies	24,337,359	20,175,814

District initiative to support technology	450,000	900,000
District initiative in support of schools	300,000	750,000
Internally restricted surplus	<u>13,701,366</u>	<u>11,913,517</u>
Unrestricted Operating Surplus	2,515,509	4,982,201
Total Operating Surplus	<u>16,216,875</u>	<u>16,895,718</u>
Accumulated Surplus	<u>\$ 107,954,053</u>	<u>\$ 99,258,721</u>

School District No. 35 (Langley)

Notes to the Financial Statements

Year Ended June 30, 2018

13. Interfund Transfers

The School District manages its accounts using three different funds – Operating, Special Purpose and Capital. Transfers between these funds during the year ended June 30, 2018, were as follows:

- A transfer in the amount of \$31,772 (2017: \$51,180) was made from the special purpose fund to the capital fund for payment of capital assets purchased.
 - A transfer in the amount of \$2,015,555 (2017: \$1,905,983) was made from the operating fund to the capital fund for payment of capital assets purchased.
-

14. Related Party Transactions

The School District is related through common ownership to all Province of British Columbia ministries, agencies, school districts, health authorities, colleges, universities and crown corporations. Transactions with these entities, unless disclosed separately, are generally considered to be in the normal course of operations and are recorded at the exchange amount.

The School District has an economic interest in the Langley School District Foundation (Foundation) which acts as a fundraising agency for the School District. The Foundation is a separate legal entity and is a registered charity under the provisions of the *Income Tax Act* of Canada. The Foundation has its own board of directors who approve grants to support various initiatives of the School District.

During the year, the School District received \$320,765 (2017: \$596,131) in contributions from the Foundation to support and promote programs not funded by the Ministry of Education. The School District made contributions to the Foundation to support its operations of \$4,500 (2017: \$4,500). The School District also has an amount receivable from the Foundation of \$1,462 (2017: \$5,118 – see Note 3).

15. Contractual Obligations and Contingencies

- a) In the normal course of business, lawsuits and claims have been brought against the School District. The School District contests these lawsuits and claims. Management believes that the results of any pending legal proceedings will not have a material effect on the financial position of the School District.
- b) The School District has entered into a number of multiple-year contracts for the delivery of services and the construction of tangible capital assets. These contractual obligations will become liabilities in the future when the terms of the contracts are met. Disclosure relates to the unperformed portion of the contracts.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

15. Contractual Obligations and Contingencies (continued)

- c) The School District was unable to reach an agreement with the local teachers' union regarding treatment of unspent Classroom Enhancement Fund remedies by June 30, 2018. The matter is currently under arbitration. The likelihood and amount of any resulting liability is not determinable and has not been recorded at June 30, 2018.

16. Asset Retirement Obligations

Legal liabilities may exist for the removal or disposal of asbestos in schools that will undergo major renovations or demolition or as a requirement of a disposal. The fair value of the liability for asbestos removal or disposal will be recognized in the period in which a reasonable estimate of fair value can be made. As at June 30, 2018, the liability is not reasonably determinable and the School District has accordingly not made any provision in the financial statements to reflect future removal costs or reduced sale proceeds.

17. Budget Figures

Budget figures were approved by the Board of Education through the adoption of an annual amended budget bylaw on February 27, 2018.

Budget figures included in the financial statements reflect the amended planned budget approved by the Board. The School District has elected to present the amended budget as it reflects a budget based on funding as a result of final enrollment numbers versus estimated enrollment projections.

Revenues	Annual Budget	Amended Budget	Change
Ministry of Education	\$ 192,423,840	\$ 211,621,018	\$ 19,197,178

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

17. Budget Figures (continued)

Significant changes between the original and amended budgets are as follows:

- Ministry grants – reflects increased student enrolment and funding for Classroom Enhancement Fund.
- Instruction expenses – reflects the impact of higher student enrolment, increase in supplies and initiatives for schools and higher teacher and support salaries. Also, there is the impact of the Classroom Enhancement Fund.

18. Risk Management

The School District has exposure to the following risks from its use of financial instruments: credit risk, market risk and liquidity risk. The Board ensures that the School District has identified its risks and ensures that management monitors and controls them.

a) Credit risk:

Credit risk is the risk of financial loss to an institution if a customer or counterparty to a financial instrument fails to meet its contractual obligations. Such risks arise principally from certain financial assets held consisting of cash, amounts receivable and investments.

The School District is exposed to credit risk in the event of non-performance by a borrower. This risk is mitigated as most amounts receivable are due from the Province and are collectible.

It is management's opinion that the School District is not exposed to significant credit risk associated with its cash deposits and investments as they are placed in the Central Deposit Program with the Province and in recognized British Columbia institutions and the School District invests solely in term deposits and guaranteed investment certificates.

b) Market risk:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of currency risk and interest rate risk.

- i. Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the foreign exchange rates. It is management's opinion that the School District is not exposed to significant currency risk, as amounts held and purchases made in foreign currency are insignificant.
- ii. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market interest rates. The School District is exposed to interest rate risk through its investments. It is management's opinion that the School District is not exposed to significant interest rate risk as they invest solely in term deposits and guaranteed investment certificates that have a maturity date of no more than 3 years.

School District No. 35 (Langley)
Notes to the Financial Statements
Year Ended June 30, 2018

18. Risk Management (continued)

c) Liquidity risk

Liquidity risk is the risk that the School District will not be able to meet its financial obligations as they become due.

The School District manages liquidity risk by continually monitoring actual and forecasted cash flows from operations and anticipated investing activities to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the School District's reputation.

Risk Management and insurance services for all School Districts in British Columbia are provided by the Risk Management Branch of the Ministry of Finance.

19. Economic Dependence

Operations of the School District are dependent on continued funding from the Ministry of Education and various governmental agencies to carry out its programs. These financial statements have been prepared on a going concern basis.

20. Future Capital Transactions

On June 24, 2016, the Ministry of Education announced provincial funding for the seismic upgrading and partial replacement of Langley Secondary School. The total value of the project is \$26.2 million. Work commenced in 2017 with completion expected in 2020. The school district has estimated costs remaining of \$11,748,895 as at June 30, 2018 relating to this project.

On September 16, 2016, the Ministry of Education announced provincial funding for the construction of a 1,500 student (core 1,700) secondary school on the Willoughby Slope. The total value of the project is \$58.9 million. Construction of the school commenced in the fall of 2017 for a planned opening in September 2019. The School District will be contributing the first \$21.4 million of the capital cost of the project from proceeds on the disposal of tangible capital assets from 2016-17. The school district has contractual obligations of \$28,754,554 as at June 30, 2018 relating to this project (2017: \$2,817,351).

SCHOOL DISTRICT NO. 35 (LANGLEY)
STATEMENT OF FINANCIAL INFORMATION
EXPLANATION OF DIFFERENCES TO AUDITED FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018

The salaries paid to employees as well as the payments disbursed to suppliers for goods and services and employee benefit premiums are disclosed on the audited financial statements as expenses, net revenues, capitalized costs or changes in accounts receivable and accounts payable.

The differences between the audited financial statements (Statement 2 – Statement of Operations) and the combined totals of the Schedule of Remuneration and Expenses and the Schedule of Payments Made for the Provision of Goods and Services are primarily as follows:

- *Taxable benefits are included in the Remuneration column of the Schedule of Remuneration and Expenses. The same amount is included in the Schedule of Payments Made for the Provision of Goods and Services for payments made to benefit carriers.*
- *Accruals made at year-end for certain supplier costs and future employee benefits.*
- *Expenditures recovered from external organizations.*
- *Payments made to District-operated schools.*
- *Internal departmental charge-outs and surcharges.*
